HYPOTHESIS

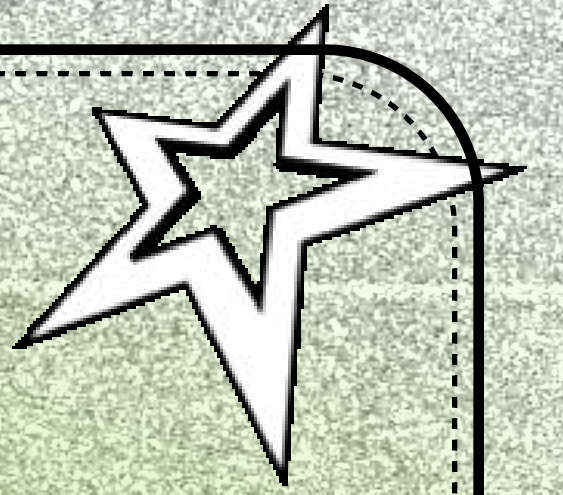

SURVEY

INTERVIEW

We made hypotheses about user behavior and shopping habits and identified 4 main archetypes

HYPOTHESIS

SURVEY

INTERVIEW

40

RESPONDENTS

We identified 2 respondents that belongs to each of the 4 archetype

**The
Athlete**

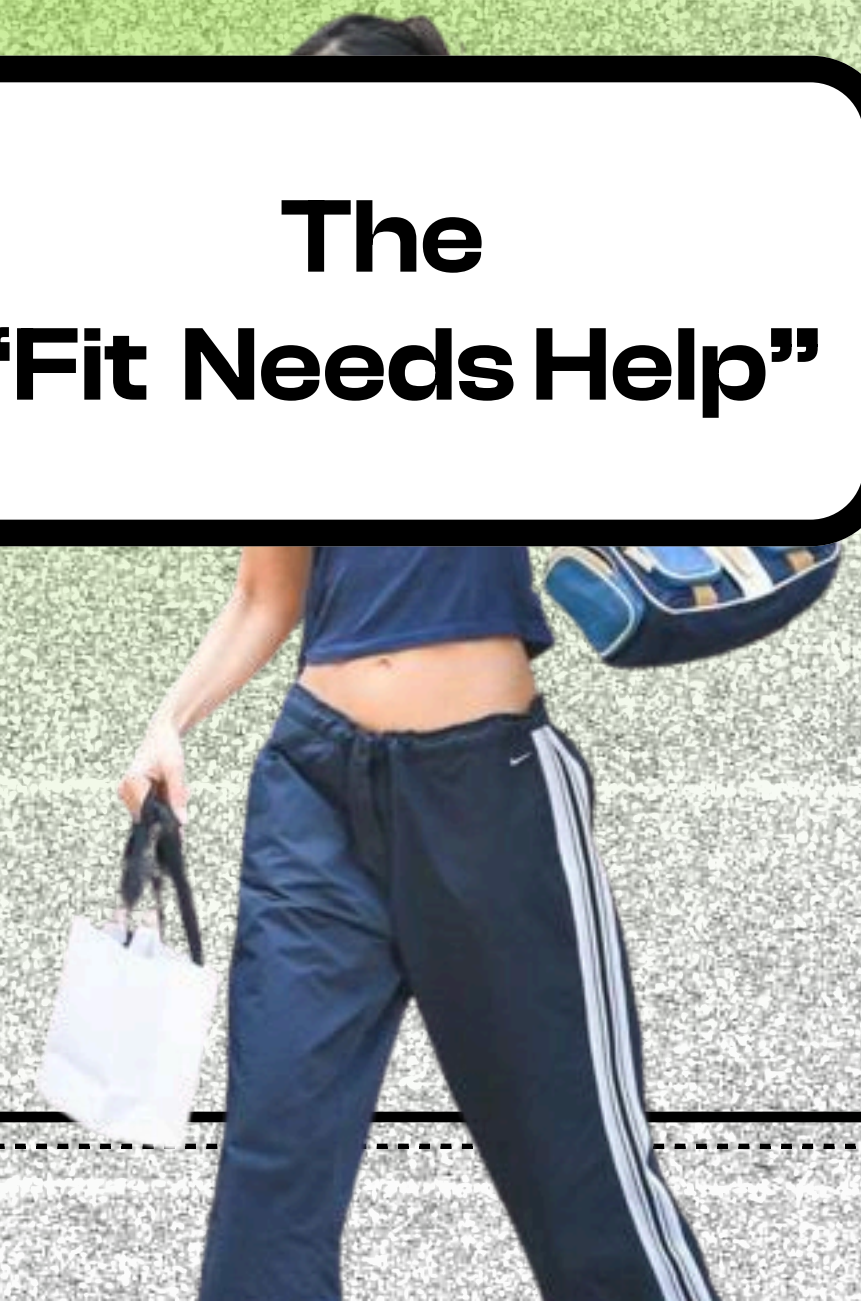

**The Vintage
Shopper**

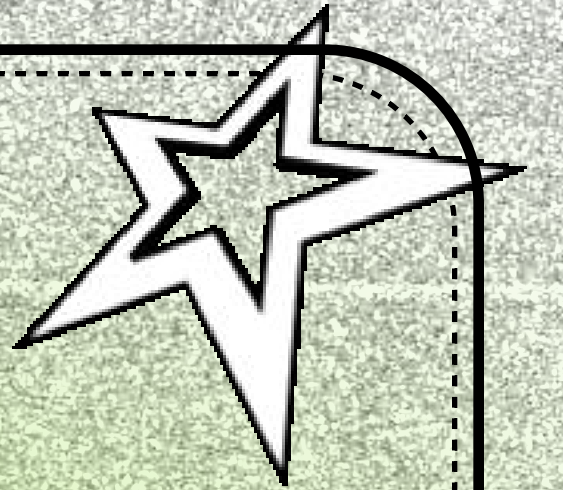

**The
Fashionista**

**The
“Fit Needs Help”**

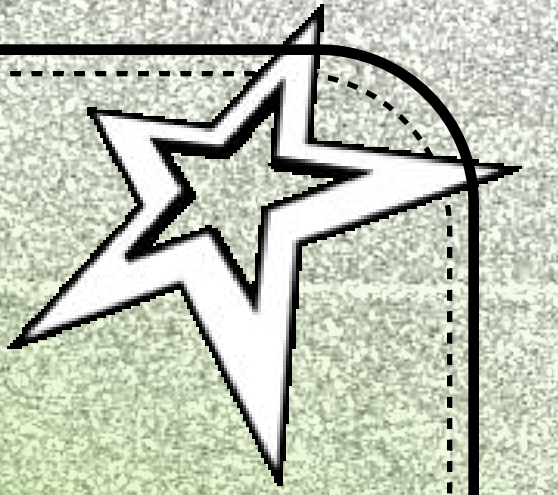

HYPOTHESIS

SURVEY

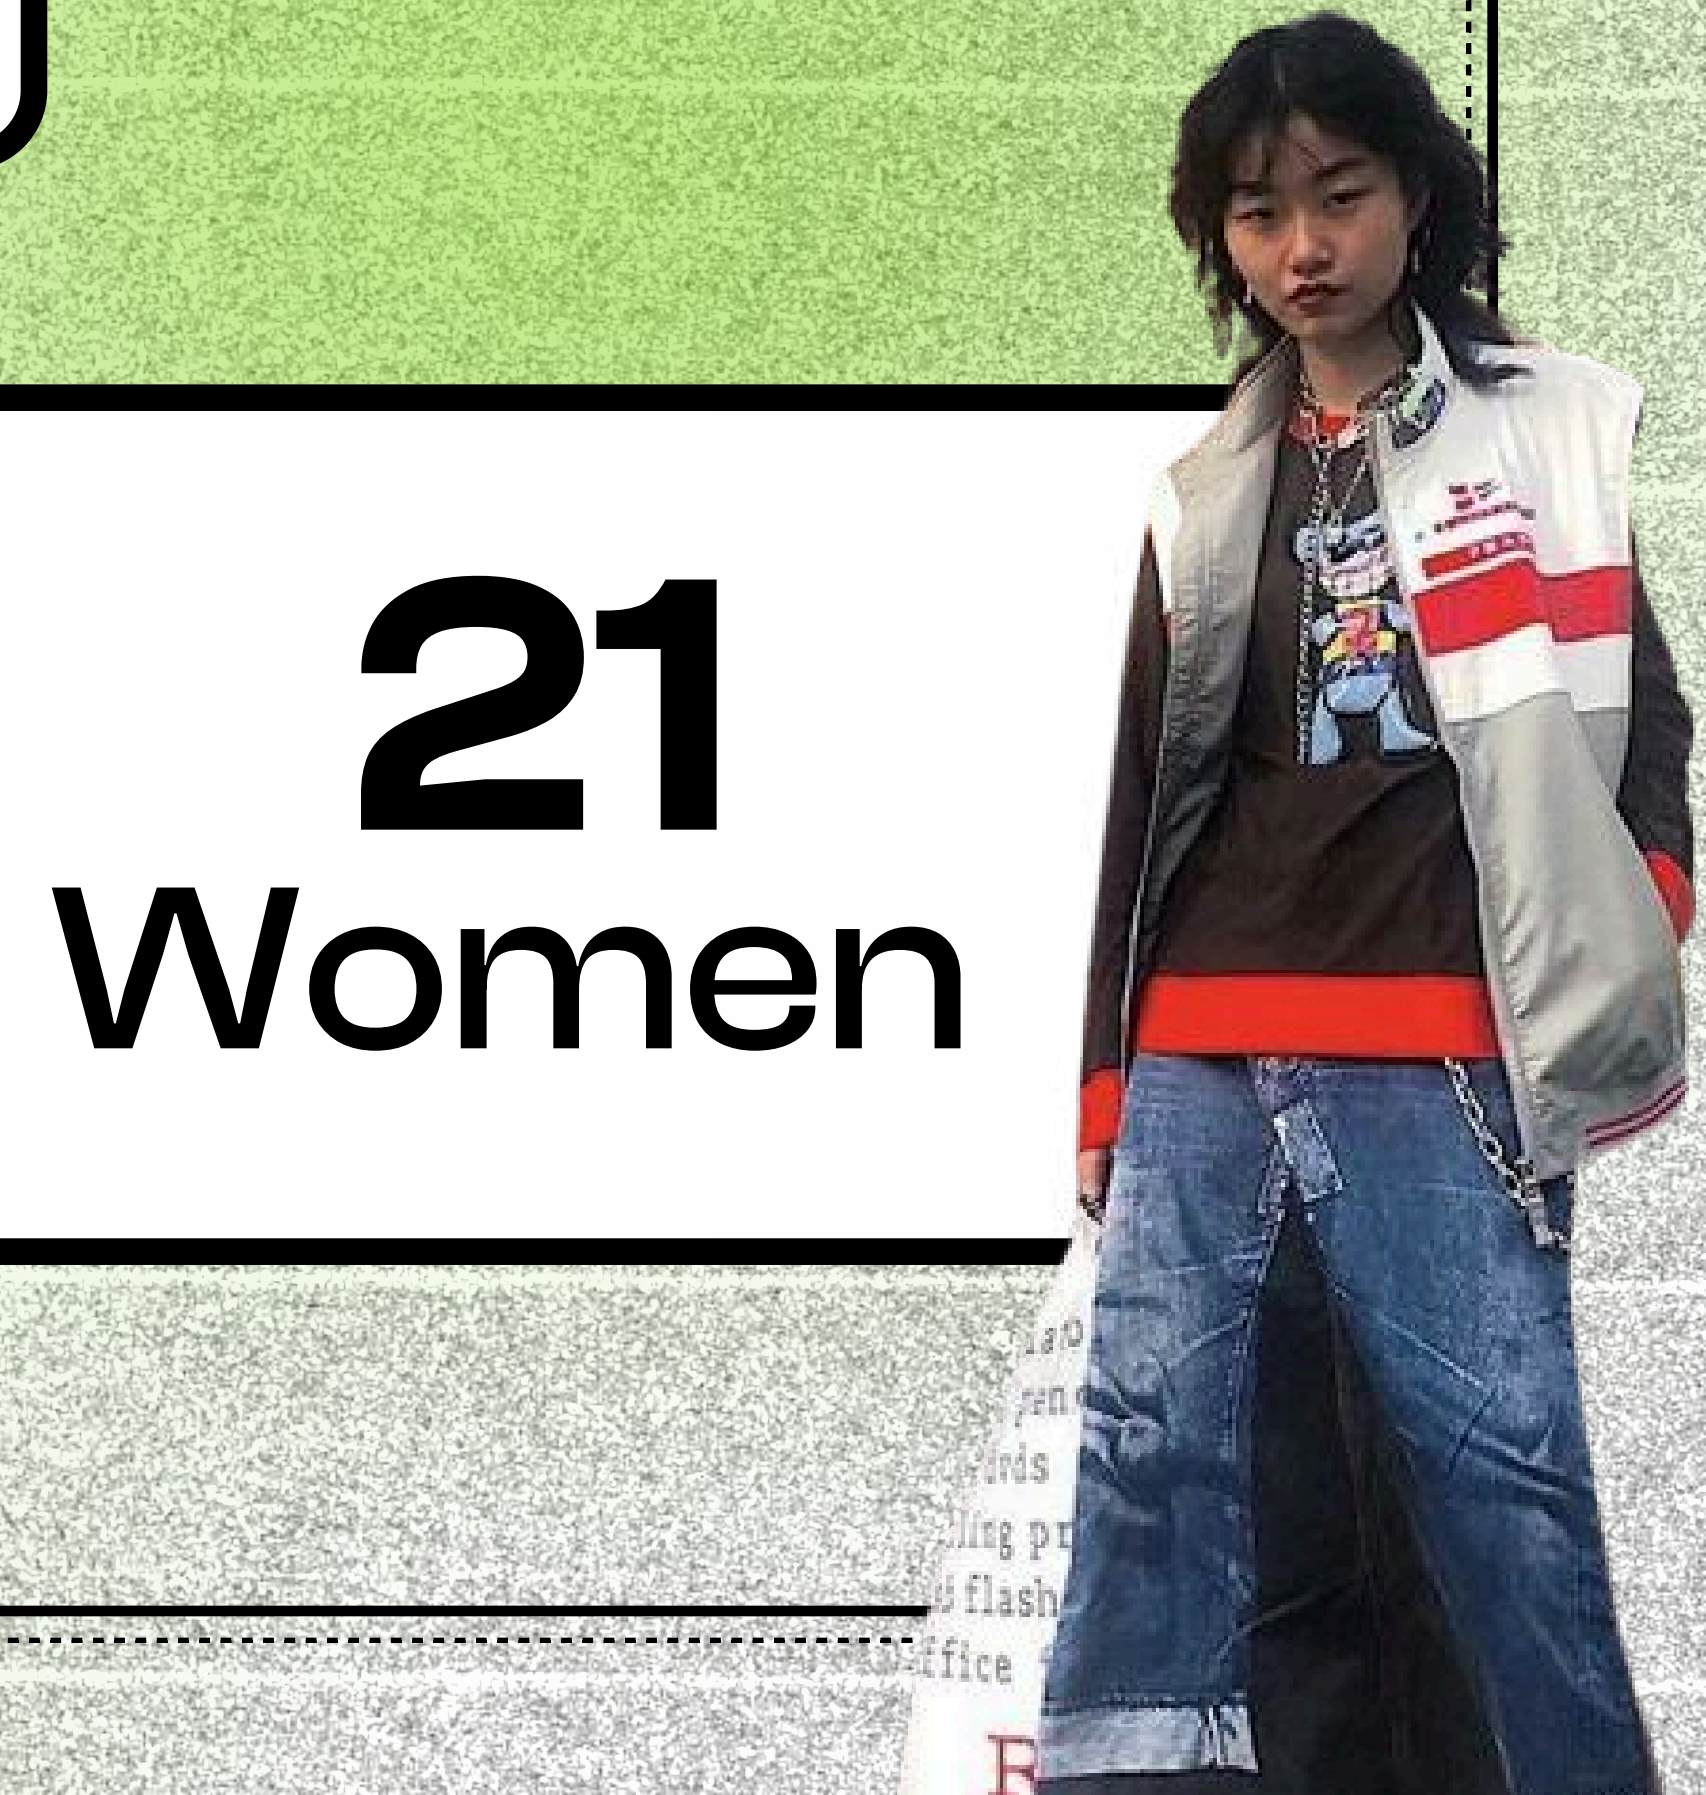

INTERVIEW

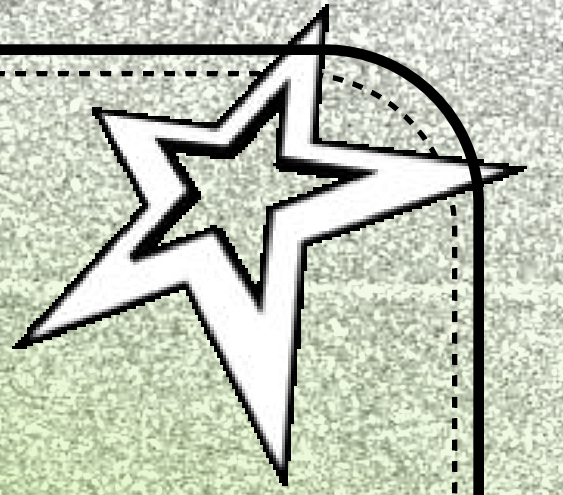

53 Interviews

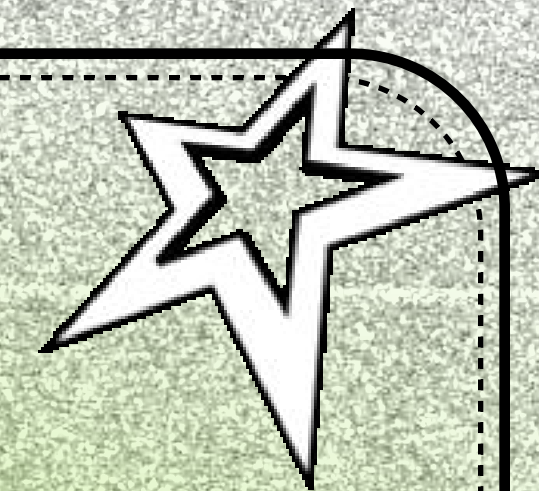

32
Men

21
Women

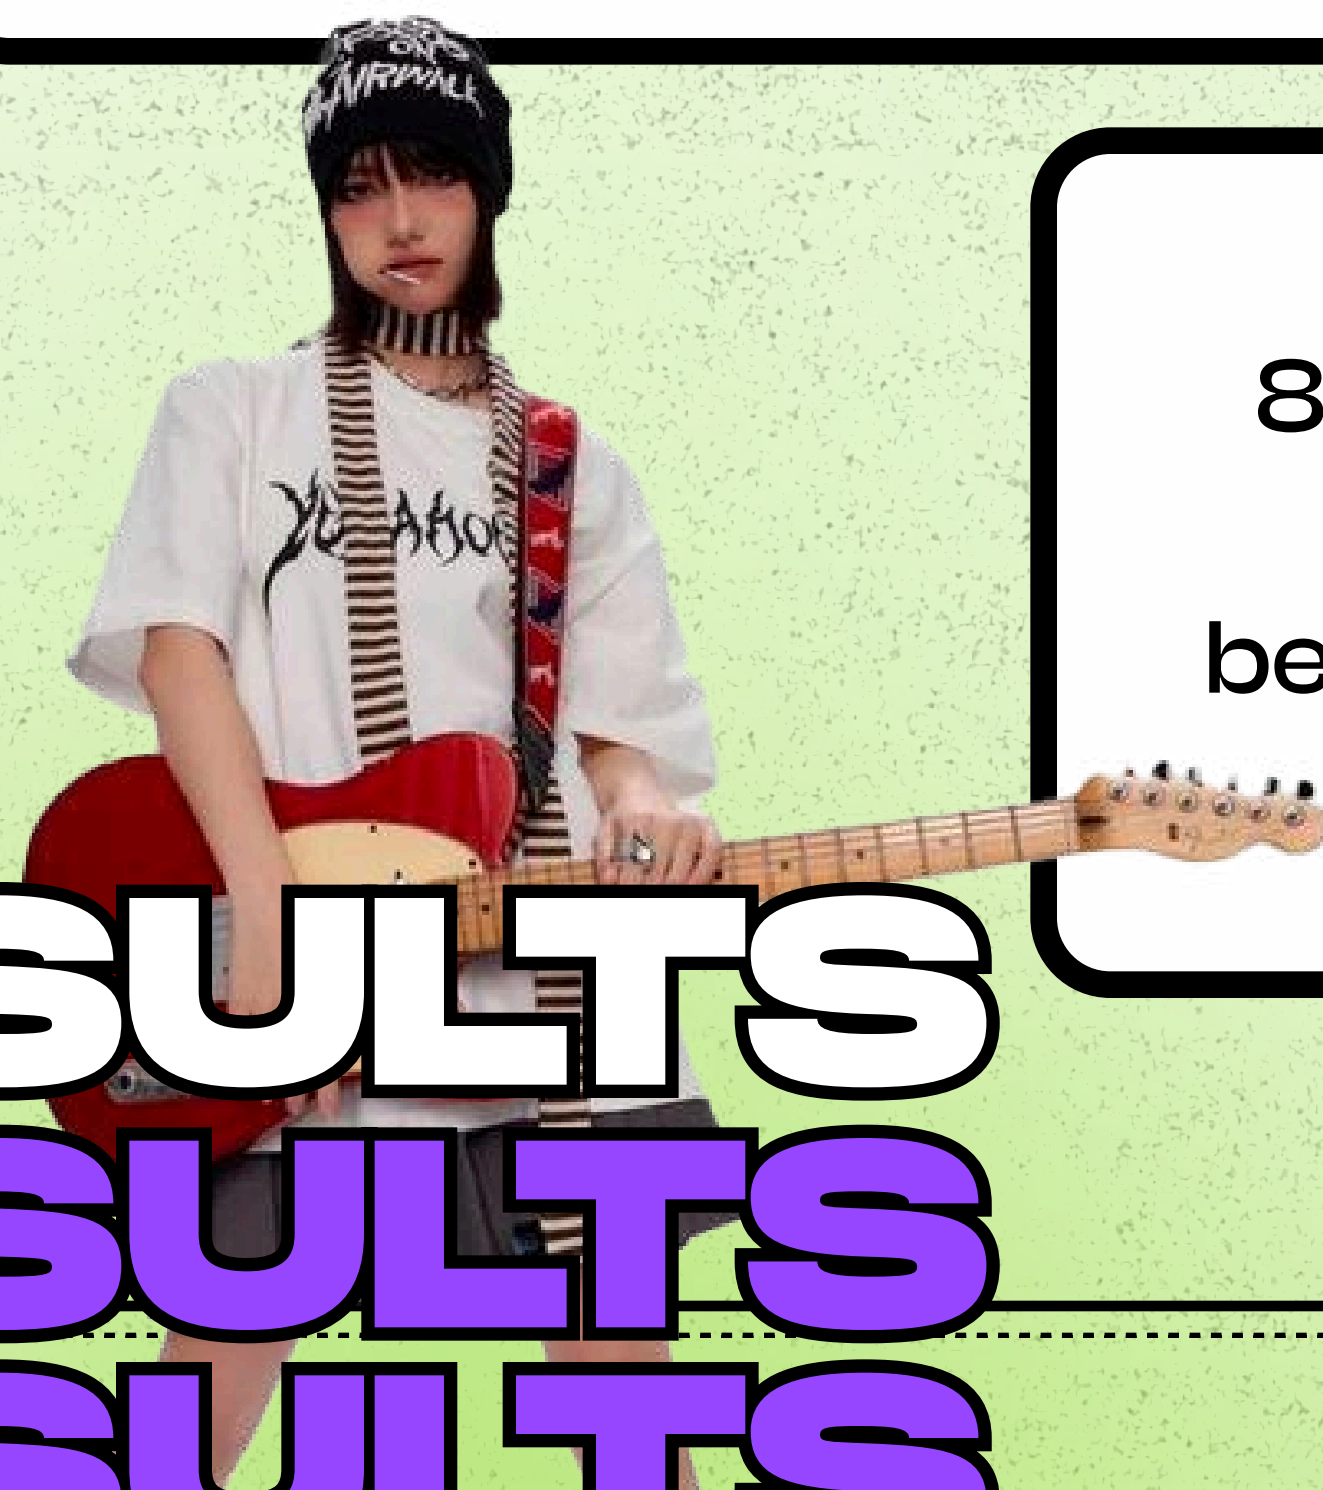

What were the results?

We found that individuals who had more varied wardrobe and fashion style were more optimistic about Dilliad

The “vintage shopper” and the “fashionista” resonated most with both the problems when described to them

80% of interviewees struggle most with curating outfits beyond their usual combination
